

## **EUROPLANT RECOMMENDATION PLANT SPACING<sup>®</sup> HABITAT AND CULTIVATION AMENDMENTS**

<b>FACTOR</b>	<b>AMENDMENT PLANT SPACING</b>
light sandy soil	+2 cm
soil with unstable water supply	+2 cm
early planting time (March)	-2 cm
late planting time (Mid-April / May)	+2 cm
big sized seed potatoes (normal sorting)	+2 cm
small sized seed potatoes (normal sorting)	-2 cm
medium sized potatoes for packing 40/60	-2 cm bis -4 cm
processing potatoes 50+	+6 cm bis +8 cm
oversizes	+4 cm
ideal seed viability	+2 cm
physiological old seed potatoes	-2 cm

Basically all factors can be summed up. Though some combinations are not possible or do not make sense. Maximum amendments are reached at +/- 4 cm.
